

Cover Removal Systems

A cover removal system helps make your spa entry easy, helps prevent unnecessary cover damage and eliminates the need to drag off and pull on the spa cover. Choose from one of four cover removal options for the Tempo™, Relay™ or SX models.

CoverCradle®

Dual pneumatic gas springs in the arms of this lifter make cover removal a breeze. This top-of-the-line CoverCradle system features a low-profile design and ultra-smooth gliding mechanism. Requires 24" clearance.

CoverCradle® II

Similar in design to the CoverCradle, this lifter uses a single pneumatic gas spring and allows for smooth operation. Requires 24" clearance.

Lift'n Glide®

It's easy to remove your cover with this economical cover lifter. Requires 14" clearance.

UpRite®

This system lifts the cover up over the spa bar top. It is ideal for limited clearance applications such as decks and gazebos. Requires only 7" clearance.

Steps

Adding one of our spa step options allows for simple, safe, and easy access to your Hot Spot® spa.

Redwood

32" Polymer Step

This economical spa step is durable and lightweight. And at the end of its life, it can be disposed of directly into a standard recycling receptacle. Available in Coastal Gray, Espresso and Redwood.

Espresso

32" Everwood® Step

This premium spa step, made from rigid polymers, requires very little maintenance. Embossed wood grain look and rich color combine to give it a natural wood appearance. Available in Coastal Gray, Espresso and Redwood.

Coastal Gray

33" Round Wood Step

The round edge of this real wood step makes it a perfect fit for the Sprint™ or Dash™ spas. Available in Coastal Gray or Redwood.
