

The Savings Are Built In.

A Hot Spot® spa is an investment in comfort and relaxation that's designed to give you years of enjoyment and cost-conscious operation, whichever model you choose.

Powerful

Want lots of jet power? You've got it! At the heart of every Hot Spot spa is a powerful Wavemaster® jet pump, perfectly matched with the spa's jet and plumbing system. Powerful, adjustable jets relax and revive your body with a comforting blend of air and water. Direct the adjustable jets for customized hydromassage. You'll get the precise amount of power you prefer for a deeply satisfying massage.

Energy-Efficient

Concerned about energy use? We thought that through. All Hot Spot spas have been certified to the stringent energy efficiency guidelines set by the California Energy Commission (CEC), in accordance with California law. With California setting the standard for energy-efficient hot tubs, you can have peace of mind knowing that your Hot Spot spa is designed to keep operating costs low no matter where you live.

Reliable

Our proven, high quality No-Fault® heater is dependable and efficient, keeping the spa water at your desired temperature so you can enjoy a relaxing soak anytime. The heater is backed by our exclusive No-Fault warranty which has no exclusions, even for water chemistry.
