

Surround Yourself in Style.

Good looks and attention to detail are the hallmarks of every thoughtfully designed Hot Spring® spa.

Traditional Meets Modern

With clean lines and flowing curves, our hot tub design is a modern expression of the traditional. Eye-catching details include our stylized bartop, custom jet recesses, vibrant stainless steel jet trim, and contemporary diverters and air levers.

Defining Details

Our shells are beautiful and strong. The acrylic surface layer is co-laminated to an impact-resistant ABS substrate. These two layers are fused together in a controlled, automated process that ensures a more durable, even surface that will provide years of enjoyment.

We pioneered the development of alternative-wood cabinets. Our exclusive Everwood® cabinet delivers low maintenance and high durability, and comes with a five-year limited warranty. The embossed wood-grain look evokes the natural warmth and beauty of wood.
