HOT TUBS

Step into it[®]

From the makers of

HotSpring[®]
Portable Spas

Illuminate the Possibilities®

Step into a Limelight® hot tub and you know your moment has arrived.

You can entertain friends, gather with family or relax in private. It's easy to choose a Limelight hot tub knowing all your desires have been met by the makers of Hot Spring® Spas – the world's number one-selling brand.

Decades of experience, commitment to quality and impeccable craftsmanship have combined to create a beautiful spa with true star power. Your Limelight hot tub is lovely to look at, easy to care for, lavished with features and a solid performer – everything you ever wanted in an attractive package.

Give yourself a round of applause for making such a smart choice. Then step into your Limelight hot tub and enjoy the rewards.

Step into it®

Innovative Design

Sleek, Flowing Curves – From top to bottom, pillows to jet recesses to seating, Limelight Hot Tubs exhibit one fluid motion of continuous curves creating a stylish environment and maximum relaxation.

Dynamic Features

Strikingly Innovative – With a brilliant multiple-point lighting arrangement, dazzling backlit waterfall, stainless steel hydromassage jets, and a dynamic optional entertainment system, you'll quickly find yourself escaping to your own personal paradise.

Quality Craftsmanship

A Commitment to Quality – Incorporating Hot Spring Spas' advanced components – our quiet-as-night SilentFlo 5000® circulation pump, powerful Wavemaster® jet pumps, advanced IQ 2020® control system and unique No-Fault® heater.

With so much to offer, your Limelight hot tub is the smartest investment you'll ever make in having fun.

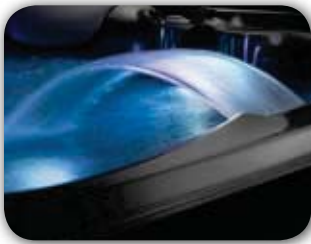

Our Show-Stopping Performance Always Takes Center Stage

Deserving of an Encore – Both Outside and In

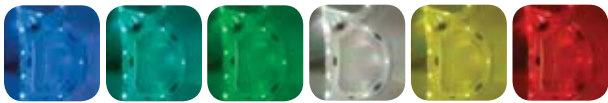

What better way to add an element of style to your backyard than with a Limelight® hot tub. On the outside, our elegant, low maintenance ELMwood® simulated-wood cabinet will dazzle you with its modern, clean lines. While on the inside, our attractive pearlescent acrylic shell and stainless steel jet trim earn us star billing.

Throw Some Color on the Scene

The Raio® lighting system illuminates the entire hot tub with up to 32 points of light accenting the lines of the hot tub interior, the tranquil arch of the Vidro™ waterfall and each of the four corners. Six color

options can be set in a high, medium, low or off position. Showcase one color or set the system to loop through all of them sequentially at your choice of speeds.

Show Stealer

Every performance is a show stealer with Limelight hot tubs' soothing jets. Always a marquee performer, our Direct jet provides the targeted relief you crave, while our Combination and Combination XL jets are versatile and can be adjusted for a directional or rotational massage.

Best Supporting Roles

And the award goes to...sturdiness and strength! Limelight hot tubs' powder coated steel frame and protective, thermoformed ABS base pan stand up to the test. The steel

frame has been third-party tested for outstanding structural and environmental durability. Engineered to last – providing support that may go unseen, but is certainly not unappreciated.

Energy-Efficient Performance

Stand up and cheer! All Limelight hot tubs have been certified to the California Energy Commission (CEC) in accordance with California law. With California setting the standard for energy-

efficient hot tubs, you can have peace of mind knowing that your Limelight hot tub is designed to keep operating costs low, no matter where you live.

Quality Act

Limelight hot tubs are built with many of the same quality components that have made Hot Spring® Spas the world's number one-selling brand. Our powerful Wavemaster® jet pumps deliver rejuvenating hydromassage. Constantly circulating water through the filter and heater, heating only when necessary, the SilentFlo 5000® circulation pump is totally automatic – no need for long cleaning and heating cycles. Our unique No-Fault® heater is dependable and efficient, with heating elements and housing made of titanium for unmatched corrosion resistance – backed by an exclusive 3 year No-Fault limited warranty*, which has no exclusions for damage caused by water chemistry.

* See warranty for full details.
